Rubber Antivibration Systems

## PF-TYPE AISI 304 Stainless Steel: Cylindrical anti-vibration foot-female buffer

Cylindrical anti-vibration buffer with one seat composed of one AISI 304 stainless steel nut. This is pressed on washer, sandblasted and attached, and then vulcanised on high-quality natural rubber mix. In stock in 55 Shore A hardness. This article is available on request with different specifications, in various screw sizes, Shore A hardness and ground mix bases.
